INTRODUCTION

1. Repair Station Capabilities Overview.

The following Capability List reflects components Co-Operative Industries' Repair Station is currently approved to perform work on. This information is based upon the FAA Operation Specification for certificate No. OI0R891N and the European Aviation Safety Association's certificate EASA.145.5897.

2. Information Contained Within This Capability List.

A. The information contained within our Capability List consists of:

- (1) Part Numbers: Accessory part numbers.
- (2) Alternate Part Numbers: If an accessory has more than one part number, the alternate part number is listed here
- (3) Manufacturer (Manf.): This is the engine manufacturer in the case of an engine accessory or the aircraft manufacturer in the case of an airframe component.
- (4) Engine Program: The engine model/program, where applicable.
- (5) Aircraft Application: If known, the airframe application will be listed
- (6) Description: Component description as defined in the CMM and documentation.
- (7) ATA Chapter: References the applicable Component Maintenance Manual (CMM).

B. The components listed within this document are divided into sections, grouped by engine program. For example, CFM56-5 components are located in the section that is labeled 'CFMI CFM56-5' with unique page numbers 'CFM5-X'.

— A Division of kSARIA —

Repair Station
FAA OI0R891N, EASA.145.5897

3. Ratings and Limitations.

As defined in Co-Operative Industries' Operation Specifications (A003) Class Ratings and Limited Ratings are as follows:

A. Class Rating: Accessory Class 2: Electrical Accessories.

B. Limited ratings:

(1) Rating: Accessories – Electrical

(2) Limitations: Limited to maintenance, alterations, overhaul and inspections as described in the manufacturer's component maintenance manual, Air Carrier maintenance instructions, or other data approved by the administrator.

4. Document Control

A. This Capability List is available upon request in digital and/or hardcopy formats.

B. Revision Service.

(1) As new part numbers and/or programs are added or deleted, this document will be revised to reflect those changes.

(2) The revision schedule will be on an 'as needed' basis.

(3) A revision bar in the page's right margin, adjacent to the new data, will highlight changes. The footer of each revised page will reflect the new revision date.

(4) Front matter, such as the Title Page and List of Effective Pages will be revised to reflect changed information.

(5) This document also contains a Record of Revisions page that will highlight the revision details.

5. Contact Information.

If you have questions, comments, require additional details, or would like to make arrangements for repair services, please contact:
