

CF34 WIRING HARNESS REPAIRS

CIA&D now offers certified repair services for the CF34-3 (RJ) and CF34-8E engine harnesses

Major airlines and MROs rely on CIA&D's FAA Part 145 certified repair station to support their aircraft and engine wiring harness component and accessory overhaul & repair needs.

When you select CIA&D, you can depend on cost effective harness and interconnect repair services combined with responsive turn-times.

Repair Service Benefits:

- FAA / EASA / CAAC Certified Repairs
- Repaired to OEM specifications
- Responsive turn times
- Cost effective when compared to new product replacement
- Extended harness life
- Experienced technicians and OEM approved parts
- Repairs are returned with warranty
